# THE FARM TRIBUNE

VOL. X — NO. 1 PUBLISHED WEEKLY — PORTERVILLE, CALIFORNIA Thursday, June 28, 1956

NEW ASSEMBLYMAN — Domer F. Power, of Lindsay, whose election became official with count of absentee ballots last Friday.

## POWER TO BE SWORN IN AS ASSEMBLYMAN

Domer F. Power, of Lindsay, will be sworn in as state assemblyman from the 35th district shortly after the first of July to fill the unexpired term of the late Roscoe Patterson.

In a special election, conducted June 5, Mr. Power topped his two Democratic opponents, Myron Frew, of Dinuba, and Howard Chittenden, of Porterville.

Following official count of absentee ballots last Friday, Mr. Power had a total of 16,688 votes; Mr. Frew, 16,049 and Mr. Chittenden, 8,747.

Election reports have been sent from the county clerks' offices of both Tulare and Kings counties to the office of the Secretary of State in Sacramento; certificate of election will be issued by the Secretary of State as soon as campaign expenses are filed by Mr. Power, as required by law.

The assemblyman-elect will be sworn in at Sacramento immediately after official notification of election.

## Centennial Reunion For Wilcox Family

Members of the Wilcox family — some 200 of them — will gather at Bartlett park, Sunday, July 8, for a centennial reunion, marking 100 years since Origen Wilcox, and others of the family, homesteaded along the Tule river in the Success area.

Oldest member of the family will be Mamie Putnam, a daughter of Origen Wilcox, who was

(Continued on Page 2)

## BENEFIT DANCE FOR MAJORETTES

A benefit dance for Porterville high school majorettes will be held the evening of July 7 at the Green Mill in Porterville, with funds raised to be used toward expenses of sending six girls to Pepperdine college in Los Angeles for a summer majorette course. Girls who will attend include: Peggy Wallace, Diana Milosovich, Tanny Stephen, Diana Mantooth, Elizabeth Forester and Della Pritchett. The Green Mill Ballroom is being donated by C. H. Weed.

EDWIN J. NEUFELD, of Wasco, who was reelected president of Calcot, cotton cooperative with membership throughout the cotton-producing districts of California and Arizona and with operations throughout the world. Mr. Neufeld was re-named president at annual meeting and barbecue of the association held June 19 at Mooney Grove.

## Cotton Season Said One Of Best In Years

Cotton growers have experienced "one of the best seasons in years", J. Russell Kennedy, Calcot general manager, said at the 29th annual meeting of Calcot, held June 19 at Mooney Grove, with a record-breaking 3,800 members and guests attending.

Re-elelcted president of the co-

## COUNTY WHEAT SUPPORT AT $2.11 A BUSHEL

Price for 1956 crop wheat will be supported in Tulare county at a minimum of $2.11 per bushel for Grade No. 1 wheat, according to H. B. Keith, chairman of the County Agricultural Stabilization and Conservation committee; the county rate will be adjusted up or down for grade and quality.

To obtain wheat price support, a producer must be in compliance with his 1956 wheat acreage allotment and be eligible to receive a wheat marketing card on all other farms in the county in which he has an interest. Price-support rates for wheat stored at terminals, country points and on the farm will be available at the county ASC office.

Varieties of wheat specified as "undesirable" will be discounted in the 1956 program. The discount is 20 cents per bushel and applies to 24 varieties, including Sonora. These varieties have been so designated because of inferior milling or baking qualities. Producers will be required to certify regarding undesirable varieties, as well as to make the usual price-support certifications.

## SUCCESS DAM FUNDS OKed

Appropriation of $2,490,000 for start of work on Success dam was included in an $856,000,000 public works bill passed this week by both houses of congress; $558,000 was included for Terminus dam, on the Kaweah. It is expected that army engineers will be at work on the Tule river shortly after the beginning of the new fiscal year, July 1.

## ROCKWELL PLANT BIDS BY MID-JULY

Bids for construction of the million dollar Rockwell Manufacturing company plant at Porterville will be opened in Fresno about the middle of July, it is stated by officials of the Porterville Civic Development Foundation, and construction of the 106,000 square foot building is expected to start in early August.

Plans and specifications for the building are in the hands of contractors; at least two Porterville contractors are considering bids for the job.

Construction will be financed by the Porterville Civic Development Foundation through loans to the foundation by more than 300 local individuals, and by the securing of a major loan from a bank or other lending agency.

Persons who pledged loans to the Foundation are urged by Harry J. Johnson, Foundation president, to get their money in without delay; at present, $251,000 has been actually turned in, leaving some $30,000 in pledged loans yet to be collected.

Earl Hudson, general manager of the Rcokwell company's Porterville plant, has been in town for about two weeks, checking on developments and "getting acquainted."

He says that he is impressed by the town, he likes the congenial

(Continued on Page 9)

## EDWY LUKER GETS 18-INCH RAINBOW ON KERN RIVER

Edwy Luker proved to be the "fisherman of the year" when he took an 18-inch Rainbow out of Kern river during annual pilgrimage last week to Painter's camp, above Kern Flat.

Luker caught the fish on a Buz Buszek Kern River special fly. Report from fishermen making the trip is that "fishing was good, water high."

In the party were: John Guthrie, and son, Less; Gaylord Hubler, and son, Rich; Elmer Kuchel, Luker, Arlow Awbrey, Joe Ridgeway, Fred Wall, Frank Hallford, and son, Dick, and Jackson Mead and sons, Douglas and Dick, from the Porterville area; Bob Miller, Jerry Stiner and Lucien Schmittou, of Visalia; Tom Knight of La Canada and Clarence Rich, of Cupertino.

## SPRINGVILLE AND MOUNTAIN COUNTRY TO BE VISITED BY L. A. EXAMINER MOTOR GROUP

Springville and the High Sierra country east of that community will receive special publicity in southern California as a result of a visit this week by "Slim" Bernard, motor editor of the Los Angeles Examiner, with Examiner staff writers and photographers.

The party will arrive from Southern California today, Thursday, then travel by car to Camp Nelson, Cedar Slope and Quaking Aspen, also into Wishon.

Friday, the group will pack in from Shake Camp for a couple of days in the high mountain country, coming out on Sunday. Clark Wicks, operator of the Balch Park Pack station, is donating stock for the visitors.

Springville people who will be with the southern California party will include: Dorothy Dye, president of the Springville chamber of commerce; Bill Dye, Mr. and Mrs. Wes Kutzner and George Davis.

The party will stop at Hockett lake, Hockett meadow, Evelyn lake, Quinn's horse camp, Summit lake and Peck's canyon. Possibility for winter sports development, as well as summer tourist attractions, will be presented to the visitors.

Material gathered during the trip will be used in a future Examiner newspaper travelogue, and for a motion picture to be shown on the Examiner television program.

## Farmers Can Sign For Soil Bank At ASC Office July 2-20; Some Payments Will Be Made On 1956 Crop

County farmers can sign for participation in the new soil bank plan at the Tulare County ASC office, July 2 through July 20, it was stated this week by H. B. Keith, county ASC chairman.

Farmers in the areas where crops are not too far advanced will be able to earn payments under the Soil Bank program in connection with their 1956 crops of wheat, cotton (both upland and extra long staple), peanuts, and rice.

While all details of the program have not yet been determiner, producers in general can qualify for the payments by putting land into the Acreage reserve, and thus reducing their acreage of the crop below the established allotment for the farm, it is stated.

Under the 1956 Acreage reserve, farmers who are eligible to take part in the program may earn payments in connection with one or more of the commodities specified in the law — corn, wheat, upland or extra long staple cotton, peanuts (except Virginias and Valencias for which there is no surplus), rice, and most types of tobacco — by reducing their acreage of the crop below the farm's established allotment.

Under the basic rules of eligibility established in keeping with the law, acreage designated for the Acrease reserve must: (1) Be representative of the land used for

(Continued on Page 9)

## Crop Insurance Must Be Released For Soil Bank

Farmers who have wheat and cotton acreage insured with the Federal Crop Insurance corporation must get this acreage released by the corporation if they desire to put the acreage into the soil bank plan, it was announced this week by Nelson V. Little, of Porterville, California State Crop Insurance director.

"We will do all that we can to help our insured farmers utilize the opportunities presented by the Soil Bank payments", Mr. Little pointed out.

"However, under the business insurance proposition which we are operating for farmers, insured acreage must be released by the corporation before it is put to another use. In addition to assisting insured farmers in any way practical with their Soil bank participation plans, we want to make sure that they receive full benefit from the insurance protection which we have contract to provide

(Continued on Page 2)

## CHAMPION COW MILKING CONTEST FRIDAY; KIDDIE SHOW SATURDAY WILL CONCLUDE SPECIAL DAIRY MONTH EVENTS IN AREA

Final fling for June Dairy month is slated for Porterville this weekend, with the Tulare county grand champion cow milking contest set for the city hall lawn in Porterville at high noon, Friday, and with a free kiddie show at the Porter theater, Saturday, sponsored by Smith's market and the Consolidated Milk Producers.

The milking contest will see Porterville Mayor Lester J. Hamilton matching pulls and grips with civic representatives from Tipton, Tulare and Visalia. Championship trophy will be presented by State Assemblyman-Elect Domer F. Power.

Jerseys from the Success Valley herd of Dairy Princess Karen Mays will be used in the milking contest. (These cows are being milked regularly by machine; when the contestants go to work on them by hand — well, anything could happen.)

Mayor Carl Miller, from Tulare, and Mayor John Copely, from Visalia, will be competing against Mayor Hamilton; Tipton representative will be picked from the local winner in a group of three—John Bettencourt, Arthur Litchfield and Manuel Ferrera.

The Saturday kiddie show is set for 9:30 a.m., with tickets available at Smith's market. A "standing room only" crowd of youngsters is indicated.

### SIREN TO SIGNAL MILKING CONTEST

At the sound of the siren, tomorrow, Friday, at 11:45 a.m., stop everything and rush to the Porterville city hall, where you will see Tulare County's Grand Champion Cow Milking contest.

# Centennial

(Continued From Page 1)

born July 12, 1869, and whose birthday will also be observed at the gathering.

Other sons and daughters of the Origen Wilcoxes are John Wilcox, of Alta Vista, who is barbecuing a steer for the occasion; Frederick Emerson Wilcox, retired, of Porterville; Guy Wilcox, Porterville florist; Alice Wilcox McKean, of Avenal; Grace Wilcox Traeger, of Porterville and the late Harry Wilcox.

It was in the California gold rush days that Sardis Wilcox, who was born in New York in 1835, came to California. He was successful enough to bring out his brothers, Able, John, Alfred, and John's son, Origen, with their families, as well as his wife's brother, Levi Bond, the group coming to what was to later become Porterville.

They lived for a time at the road house formerly located near what is now the junction of highway 65 and Sunnyside avenue, and homesteaded property along the Tule river; Sardis built a cabin at junction of the south and middle forks of the river.

In getting a start, Sardis traded some Los Angeles lots that he had acquired for 250 head of cattle, some hogs, 600 orange seedlings and 600 grape vines. The cattle were so wild that only 60 were left when the herd finally arrived; the grapes grew well, but the first planting of oranges in this district was on low ground, and froze.

However, the cattle and hogs did well, and a profit was made later from sale to miners during the Kern River gold rush. Sardis Wilcox later became circuit judge.

Origen Wilcox suffered a serious misfortune when his ranch was washed out in the famous flood of 1862, but he homesteaded again lower down the Tule.

Origen also worked on the old Indian reservation and brought fig trees from Fort Tejon to plant at the reservation, which was then located where the Alta Vista school now stands.

# Crop Insurance

(Continued From Page 1)

and on which premiums are now earned.

"Farmers should understand that under the insurance contract the corporation is required to appraise at least the coverage if insured land is put to another use without a release by the corporation.

"Release requests are made through our county crop insurance offices. Our adjusters are instructed to release such acreage after making an appraisal of the potential production. This appraisal will enable us to pay policy holders any indemnities due under their crop insurance protection regardless of what other payments might be made on the acreage which we have insured against loss of investment due to causes beyond the farmer's control.

"Payments made under the Soil bank will in no way affect indemnities payable under crop insurance policies due to crop loss and damage."

## THE BEST IN THE WEST

The best in the West — in fact the best in the nation is the verdict on the ninth annual fly-in, sponsored last weekend by the Porterville Area Pilots' association at the Porterville Municipal airport.

A total of 702 planes, with 2,200 oeprations (landing or take-off), was recorded, or an average of 95 takeoffs or landings per hour for the 23-hour period that the portable control tower was in operation. At 1:15 a.m., Sunday, there were 625 planes on the airport, which was just about the maximum that could be squeezed in.

All of this totals up to the fact that for a period of a day or so, Porterville had perhaps the busiest airport in the nation.

So what, you say?

Well, this event annually brings some fine publicity to Porterville; it shows the great interest that exists in private aviation — an important factor in keeping America strong in both the fields of commercial and military aviation; it indicates that the airplane is a safe, pleasant and fast means of transportation, and this fly-in proves again that when Porterville people really decide to do something, they do it in a big way.

And the event received a fine boost nationally, in the form of a congratulatory telegram from Richard Nixon, vice president of the United States.

We have lots of things to brag about in this area — our great agriculture, our fine back country, our progressive communities, and now — our place in the sun as a leader in private aviation.

Our congratulations go to the Porterville Area Pilots' association for a job well done.

## WORLD COTTON PRODUCTION HIGH

Although the most recent world cotton estimate cuts a million bales off the January estimate as a result of crop damage by weather and insects in Egypt, India and the Soviet Union, world cotton production for 1955-56 is still a record high 39.3 million bales.

## CELERY DISEASE BEING OVERCOME

Control of the six-spotted leafhopper is wiping out "aster yellows", a disease that caused a half million dollars damage to the Arroyo Grande valley celery crop in 1954.

More doves are taken in California than any other game bird, yet studies show that the dove population is holding up well in spite of this.

From

## Daybell Nursery

By John

June Dairy Month is almost over and we haven't tried to sell you one single dairy product. Probably because we don't have one single dairy product to sell. We can't sell milkweed, buttercups are out of season, and straws don't grow on strawflowers, so what can we do?

We could sell you a bottle tree but they're too messy. You might say our fruitless mulberry are the "cream" of the crop but it's too warm for such low humor. We even thought of saying we contributed to dairy month by "milking the customers" but decided against it. After all, you may be a customer, although we would hate to think any customer of ours would read this stuff!

However we did figure out why the Red Cross swimming lessons come the end of June. After all the publicity milk's been getting you need to know how to swim to get out. Those cows must be paid time and a half or something.

Getting back to the milking department you should try Weedone Crabgrass Killer on your lawn. This kills crabgrass without hurting the other grasses, if any, and won't hurt the cows either. A dollar and a quarter buys enough to do a thousand square feet or four thousand for two seventy five.

If you see spots before your eyes that drinking milk doesn't cure, you may have spotted cucumber beetles at work. Dusting with Pyretoxide Dust should remove the spots and the beetles too. We're closed Sundays to give you a rest but here the other six.

# OUR TOWN

By Betty Pearson

Next time you travel south from Our Town try Plano Road instead of Highway 65. Your trip will be safe and you will see some beautiful and interesting sights. Look to your right for a petrified haystack . . . Well, not really, but it has been here longer than I have and at this point it looks like a balanced rock . . . To your left you will see a modern Rancho with much immaculate fencing. This is the home of Lee and Justus Zimmerman. Wonder if Lee still has those fascinating cats . . . As you progress toward Terra Bella you will pass the new Lutheran Home Of The Good Shepherd and the picturesque German Colony. . . . When you pass Deer Creek, look to your right; there on a little hill is the nearly completed home of Sue and Stan Moore . . . Further on but off the road is the Howard Baker home in a setting that is pastoral and beautiful. I hear that Howard has done a fabulous job on the new cabinets which he has built and finished. . . . This is the country that is so reminiscent of the paintings produced by the eminent Dutch artist, Vincent Van Gogh, during his last period in Arles, France. Impressions of his impassioned paintings of the French countryside at that time, with the burning golds, parched browns and vivid greens can be found in many spots in our own countryside . . . When you get to Ducor you will see the Bill Dennis home standing like a beautiful oasis with the Sierra Nevada mountains as a backdrop. About here you will go west to Highway 65 and over the rolling hills to Bakersfield. Yep . . . mighty pretty country we have around Our Town!

I asked Johnny Keck what the younger set of Our Town was doing to pass the summer. Discovered that we have some very busy young men-about-town. Rick Keck is working as a stand-by fire fighter for the Forest Service. Rick will go to Porterville J. C. this fall and study Forestry . . . Dick Marshall (Bob's son) is working for the J & J Pharmacy, getting a practical outlook on that business for the future . . . Rodney Havens is working for Shell Oil Company. Everett (Rodney's Dad) is his boss and you can betcha he's learning the oil business . . . ground up . . . Don Caldwell (we voted Don the most inspiring player on Porterville High school football team) is hauling hay and building muscles for his position as Guard for Porterville College next year . . . Aubrey Lumley Jr. will sell you a shirt or almost anything if you stop in at Leggett's.

John Daybell, Bob Board, Roland Crosiar and John Keck are taking 35 Boy Scouts from Los Angeles to Kern Flats for a week. The boys will do their own cooking. (Let's hope they learn how, girls). They will fish, hike and camp. I think the fellows that take the time and make the effort for these boys are Mr. Wonderfuls.

Regardless of my predictions it looks like air travel is here to stay. The turn-out for the Fly-In was fantastic. Much of the success of this Fly-In was due to the Junior Chamber. These people did everything from serving food to driving the fliers around our town. They really worked like beavers . . . Saw a little one seater that you can buy for $1,400.00. It's a do-it-yourself airplane, yet . . . The Navy planes were a thrill to see. I always have a feeling of ownership and great pride when I see ships and planes that belong to our country. After going through them I have come to the conclusion that we shall have to invent a machine to fly the ones in the future. Don't see how people can be that brilliant.

I like this . . . and I quote. "Home is the place where you can go when you have to, and they have to let you in."

# FINS FUR FEATHERS

By Phil The Forester

Just about any low elevation readily accessible trout waters will furnish good fishing unless the water is muddy, exceptionally high and roily. This condition applies to the Kings river below Pine Flat and not too many trout are being taken there at present. When the water flow is reduced, fishing should be very good because there are plenty of trout in the water.

The fish and game department continues to stock all suitable and readily accessible water so it isn't a question of the fish being present.

We checked the San Joaquin river just below the dam at Friant on Monday and the water flow was just right. At least a dozen fishermen were catching big rainbow in the middle of the afternoon. While we were there a fish and game truck rolled up and added a few more hundred fish and several of the anglers moved in close for a little faster action.

One man said, "These fish that are just planted won't bite for a week," as he cast out and caught one. He didn't have anything more to say.

Another young fellow remarked, "Guess it's a shame to take these trout this way", as he continued to fill his limit. He added, "My friend over there never fished before, this is his first try." Novice or no, he was yanking those big rainbow out just as fast as his experienced partner.

But regardless of all the fish for easy fishing, a great many still want to work for their fun the hard way, or concentrate on wild fish. Such being the case, the following will be open to wild trout fishing on July 1 for the first time this year: Stevenson and Azalea creeks, tributary to Shaver lake. All the tributaries to Huntington Lake and up in Tuolumne county, Cherry creek and West Fork Creek drainage above their confluence.

Many small stripers are reported in the San Joaquin river in Merced county. Merced river is still high but good catfishing below Crocker-Hoffman dam.

Bass and catfish being taken from the Kings river in the Stratford area.

The fish and game commission will hold a meeting in San Francisco this Friday at which time decisions will be made with reference to the various special hunter's choice deer seasons that have been proposed. This has no connection with the three day hunter's choice at the end of the buck season in certain counties.

## We Only Heard

By BILL RODGERS

LONG AGO we learned about the "reverse twist" in reporting matters of a political nature. In case you are not familiar with this phenomenon, it works this-a-way: A reporter finds that a public official is not conducting himself in office as he should, the reporter so states in the public print; no one denies the facts that the reporter presents, but friends of the public official in question, and his cohorts in office, who by association may also look less than good, start the reverse twist by condemning the reporter for mentioning uncomplimentary facts about said public official. By employing this reverse twist, an effort is made to put the reporter on the pan, rather than the public official; the idea usually is that if some sort of smoke screen can be thrown out, if the issue can be sufficiently confused, everything will be wonderful and beautiful. . . . We might state, however, that the reverse twist seldom works, for facts are facts and you can't fool all the people all the time. And we might further state that bad situations in public office never die a natural death — they just grow and grow until such time as the roof falls in . . . Irony of the reverse twist technique, in so far as elected public officials are concerned, is this: It is so simple and so right to correct a bad situation in a public office as soon as the situation develops . . . Note to whom it may concern: The foregoing ain't hypothetical.

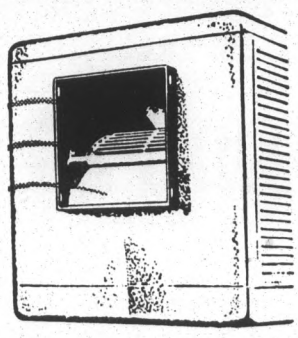

## Hi-4-H Members Attending Camp

Among southeastern Tulare county Hi-4-H club members who are this week attending camp at Whitaker Forest are: Gary Glover, Barney Howard, Bobby Howard, Norman Rambo and Orman Rambo, of Earlimart; Marvin Awbrey, Betty Hughes and Roberta Hughes of Prairie Center; Barbara Frayo, Springville; Karen Mays, Success Valley and Lee Leckband, Terra Bella.

In 1955, there were 310,000 disabling injuries and 3,700 deaths resulting from farm work accidents.

## SMALL FLOOD CONTROL BILL PUSHED BY KUCHEL

United States Senate bill 3272, providing for general authorization for small flood control projects, is being pushed by United States Senator Thomas H. Kuchel.

Object of the bill is to make funds available for study, planning and construction of small projects to offer protection from flooding by small streams and run-off in isolated canyons.

Many areas, the Senator points out, need this type of flood protection, since, in California, rapid community and farm-area growth makes protection necessary outside the areas of the larger flood control projects.

## News Of The SPRINGVILLE COMMUNITY

By WINNIE GAGE

The Springville Hobby Club held its June meeting on the lawn at the home of Mrs. Pat Fine.

After a short business meeting Mrs. Lucille Herbert and Mrs. Emma McCutcheon, as hostesses, served root beer floats and cookies to Mesdames Nona Smalridge, Winnie Gage, Ethel Rush, Mittie Stillian, Pat Fine, Reba Brittain and Miss Demaris Stillian, also Mrs. Ruth Shoup and Mrs. Elizabeth Warzee of Porterville.

The next meeting will be on July 20, in the home of Mrs. Hazel Covington. Prizes will be given for projects made from unusable materials.

---

The Springville Variety Store, owned by Ray Haycox of Exeter, has been sold to Mr. and Mrs. Jack Gregg of Glendale and the name will be Gregg's Variety Store. Mr. and Mrs. Gregg were married last September and have been living in Glendale where he was employed in Woolworth's and she was a private secretary. Mrs. Gregg was Carole Cory, daughter of Mr. and Mrs. Oren V. Cory. Jack is the son of Mr. and Mrs. Carlos Gregg.

The Do-Nut Shop also has a new name of Mary and Woody's Grill. The new owners are Mr. and Mrs. H. R. Woodruff of Los Angeles.

A pot-luck supper was held in the home of Mr. and Mrs. "Spec" Miller, honoring Mrs. Ellen Walrath's birthday. Mrs. Walrath is the mother of Mrs. Vera Clinkenbeard and lives in Temple City. Others present were Mr. and Mrs. Harold Rold, Dock Clinkenbeard, Mr. and Mrs. Strauther Collins, Mrs. Barbara Andrews and children, Mrs. Edith Clinkenbeard and daughter.

Earl Kinyen has returned home from a week's stay in the hospital suffering from an injured back received from a fall from a truck while loading cattle on his ranch.

Mr. and Mrs. D. D. Johnson of Walnut Creek have been recent guests of Mr. and Mrs. Earl Kinyen.

Larry and Ronald Kilmartin have been visiting their grandparents, Mr. and Mrs. Nelson Miller. Col. and Mrs. Kilmartin of Camp Pendleton were here over the weekend and the boys returned home with them.

Mr. and Mrs. Bob Dye of Warner Springs were guests of his brother and wife, Mr. and Mrs. Bill Dye this week on their return home from attending a Mineral convention in Fresno.

Mrs. Dolly McCullough is in Tulare Hospital following an operation and will have another operation before returning to her home on Balch Park Road.

Mr. and Mrs. Bud Graves and sons, of San Bernardino, are camping this week at Balch Park.

Master Peter Eberle Jr., son of Mr. and Mrs. Peter Eberle, of San Francisco, was guest last week in the home of Mr. and Mrs. C. E. Goodrich.

---

The potluck dinner of the Springville Grange was held on June 20. Mrs. S. Cullen, Mrs. Carlos Gregg and lecturer, N. B. Clinkenbeard were in charge of the program which consisted of a dancing group from Porterville, directed by Mr. and Mrs. Hart. Games were also played. Mrs. La Rue gave a talk on Grange activities.

Guests were Mr. and Mrs. W. W. McIntyre of Earlimart, Mr. and Mrs. Williamson and Mrs. Lottie Taggart of Porterville, Mrs. Ellen Walbreth, Mr. and Mrs. Paul Williamson of Temple City. Refreshments of cookies and ice cream were served.

---

Mrs. Vera Clinkenbeard has returned home from eight days in Exeter Hospital following surgery and she wishes to thank all her friends who sent her cards and gifts and for the needs of kindness during her illness.

## CORN SUPPORT FIGURE SET

Maximum price support for corn will be a national average of $1.50 a bushel in the 840 designated commercial corn counties, which does not include Tulare county, according to H. B. Keith, chairman of the Tulare County Agricultural Stabilization and Conservation committee.

Farmers in the noncommercial corn area, which includes all counties not designated as commercial, will be eligible for price support at 82½ percent of the commercial area maximum rate, as determined with the usual county differentials.

---

Peak rail movement of southern California celery was reached June 5 with 94 cars.

## Selection Offered Army Enlistees

Sergeant Robert T. Stalcup, Porterville Army recruiter, stated this week that men volunteering for enlistment in the Army can fulfill their military obligations and at the same time select from among numerous assignments, at the time of enlistment.

Currently, Sgt. Stalcup states, the Army is offering such assignments as airborne paratroopers; military bands (for musicians); engineers; quartermaster; transportation; U.S. Army, Far East; U.S. Army Europe; Army medical service, technical schools and many others.

Young men from the ages of 17 and up may now apply for these assignments. For more detailed information inquire in person at the postoffice, Porterville, or telephone 1234.

### BATTI BROS. COW HIGH IN ASSOCIATION

A grade Holstein owned by Batti Bros., of Tulare, topped the Tulare County Dairy Herd Improvement association for cows completing lactation period in May, with 16,780 pounds of milk and 739.5 pounds of butterfat.

## MANY ITEMS BEFORE FISH AND GAME GROUP

A number of items will be presented at a meeting of the California Fish and Game commission, being held in San Francisco, tomorrow.

Action on several special deer hunts is expected; regulations on doves and pigeons will be discussed; restriction of trout importation into the state as a disease preventive measure will be considered; also the prohibiting of the use of gold fish as bait on the Colorado river.

---

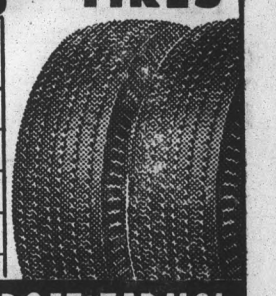

Imperial and Coachella valleys are supplying bulk of the state's tomatoes.

## WEISENBERGER RANCH WAS LAST WEEK'S MYSTERY FARM

The 300-acre Harold Weisenberger ranch, in Success Valley, was last week's Mystery Farm, with Harold, who divides his time between Weisenberger Farm Supply and his ranch, stating that the most important item he is raising is boys, but that he also has registered and grade Black Angus cattle, with pasture and hay.

The ranch is commonly known as the "Old Holdridge place", J. R. Holdridge owning and farming the property for many years. In more recent years, the ranch has changed hands several times before being purchased by Mr. Weisenberger.

An 11x14 enlargement of the ranch picture was given to Mr. Weisenberger by Jennings Feed and Farm Supply, last week's featured advertiser in the Mystery Farm series.

Two weeks ago, the Mystery Farm that was a mystery for a couple of weeks, turned out to be the former Phil Baxter place, north of the old Orange school, where Mrs. C. M. Pixley now resides. An enlarged photo of this ranch is waiting for Mrs. Pixley at Valley Body Company, Morton and Second street, in Porterville.

Now take a look at this week's Mystery Farm. If it is yours, stop by Dependable Refrigeration, 1101 West Olive, Porterville, and get your free enlargement photo. If the Mystery Farm belongs to a friend or neighbor, give them a call to be sure they see it.

## THE OLD DAYS

**PORTERVILLE ENTERPRISE**
**March, 1909**

Don't take that "just as good" excuse, for there is nothing exactly like Beech Nut bread, says H. F. Tibbs, proprietor of the City Bakery.

The Pioneer Land company has decided to put on the market some of the best alfalfa land in the district at prices and terms that are very reasonable. Land is situated near the granite high school. For full particulars, apply to V. D. Knupp, Pioneer Land company manager.

C. F. Boettcher & Co., at the Capitol Carriage company, in the Arlington block, announce the following prices: Surries, $90.00 to $150.00; spring wagons, $70.00 to $150.00; top buggies, $65.00 to $125.00 and road wagons, $65.00 to $100.00.

Chon Steep has moved to the Arlington block where he is selling vegetables, wholesale and retail.

H. G. Traeger has purchased the entire stock of clothing, shoes and men's furnishings from S. M. Williams and will continue the business at the old stand.

D. L. Wishon, of Daunt, is looking for a man and wife to cook for 15 to 20 men.

It is estimated that there are about seven million farm families in the United States. In the few years since the rural telephone has been considered seriously, more than two million phones have been put in use in rural areas. A rural telephone line will operate as far as 40 miles with as many as 30 or 40 telephones on the line.

An excursion from the Los Angeles chamber of commerce is expected to stop in Porterville, Visalia, Exeter, Lindsay and Tulare.

Mr. A bought coffee from a mail order house at the rate of 3 pounds for $1.00. On a $20 order at the same rate he would pay $8.00 more than at the Rochdale Store. Moral: Spend your money at home where you make it.

## REV. SCHNEIDER TRANSFERRED TO SAN BERNARDINO

Rev. Everett C. Schneider, pastor of the Evangelical United Brethren church for the past five years, has been transferred to the Trinity church of San Bernardino as of July 3rd. He will be succeeded by Rev. Larry M. Thorson, a recent graduate of the United Seminary of Dayton, Ohio, whose home residence is San Diego.

During the past two and one half years Mr. Schneider has been the writer of the "Sermon in Miniature" in The Farm Tribune. In the Porterville Ministerial association he has served as president, vice-president, and twice as secretary.

Under his ministry the local church made major improvements, concluding now with the complete renovation and enlargement of the church basement. Before that a pipe-organ was installed, and a double garage was built.

The local church three years ago began the support of a new mission church in Fresno, which church now is well-established at First and Holland streets, Fresno.

Sunday's services will conclude his ministry here. At 11:00 o'clock Rev. Schneider will preach on "He Paid The Price", which will be followed by the communion service. At 4:00 o'clock the local church will give a farewell reception to Rev. and Mrs. Schneider and family.

At the 8:00 o'clock service, guest speaker will be Rev. Gordon Mollette of Van Nuys, a missionary in Haiti. The service will be presided over by the pastor.

### WHAT'S WRONG?

In the Lodi area the beautiful Tokay grapes for which the area is known are being attacked at their roots by a disease that is gradually killing off the vineyards, some of which are fifty years old.

It seems that the disease rings the roots and constricts the life-giving sap. Vineyardists have exhausted every means to kill the disease; so, many are taking out the old vineyards and replacing them with cherries and other fruits.

Often the human soul is restricted by something that prevents growth in the Christian life. And just as the grapevine is restricted at the roots, so the human soul is restricted at its roots, which in this case is called "the heart".

We read from Proverbs 4:23 that "out of the heart are the issues of life", meaning the spiritual roots of a person's life. But what is wrong with the heart that makes fruit-bearing a dying or lessening result in a man's life? For the answer we read "For the heart is deceitful above all things, and desperately wicked." (Jer. 17:9).

In this day when philosophies, cults, and isms of men point to how noble man is, despite the front-page news of crime, vice, and delinquency, it's essential that we find out what's constricting the fruit-bearing.

Fortunately for man's "heart" we know what the cause is, and we know the cure. The cause is elemental, stark-naked sin; and the cure is Jesus Christ who cancelled sin on the Cross.

## PIGS SHIPPED TO KOREA FOR CHURCH GROUP

People of the Republic of Korea will profit from a shipment of 200 head of pigs — Hampshires, Poland Chinas and Berkshires — that recently were shipped by Transocean Air lines to Korea.

Funds for purchase of the pigs came from Ohio CROP; air freight costs were paid by Church World Service, the organization that will dsitribute the pigs to some 50 Methodist orphanages, Presbyterian schools and other religious groups in Korea.

The pigs were purchased through the California Pork Producers association, and several swine associations. Assisting was W. E. Moench, of Terra Bella, president of the California Hampshire Swine association.

NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received by the Board of Education, Porterville Elementary School District, up to July 11, 1956, 8:00 p.m., for furnishing all labor and materials, equipment, etc., necessary to construct a One (1) Classroom Addition and Kindergarten Building at the Olive Street School, and a Two (2) Classroom Addition and Multi-Use Room at the Westfield School, including all appurtenant facilities for the Porterville Elementary School District, Porterville, California, in accordance with plans and specifications prepared therefor by C. B. Alford, Architect, and W. J. Thomas, 602 Haberfelde Building, Bakersfield, California, and will be opened and publicly read at or about 8:00 p.m. of the same day.

Plans and specifications for same may be obtained at the office of the Architect upon deposit of $20.00 on each set, and said deposit will be returned upon receipt of said documents in good order at the office of the Architect within 48 hours after bid opening. Said deposit will be forfeited should the Contractor fail or refuse to return the plans and specifications when called for.

Notice is given bidders that under the provisions of the Labor Code of California, Division 2, Part 7, Chapter 1, Article 2, the Board of Education of the Porterville Elementary School District has ascertained the prevailing rate of per hour wages for each craft or type of workman or mechanic needed to execute the Contract which will be awarded the successful bidder to be as follows:

| Classification | Wage Per Hour |
|---|---|
| Laborer | 2.325 |
| Carpenter | 3.00 |
| Millwright | 3.20 |
| Cement Finishers | 2.995 |
| Iron Workers - Reinforcing | 3.00 |
| Iron Workers - Structural | 3.25 |
| Sheet Metal Workers | 3.125 |
| Lathers | 3.375 |
| Plasterers | 3.15 |
| Plumbers | 3.325 |
| Steamfitters | 3.325 |
| Electricians | 3.25 |
| Painters | 2.70 |
| Linoleum Layers | 2.70 |
| Roofers | 2.875 |
| Acoustic Tile Workers | 3.00 |
| Plaster Tenders | 2.90 |
| Tile Work (Ceramic) | 3.125 |
| Glaziers | 2.80 |
| Insulation | 3.00 |
| Pick-up Truck under 1000 lbs. | 2.325 |
| Flat-Rack carrying under 18,000 lbs. | 2.325 |
| Flat-Rack carrying over 18,000 lbs. | 2.45 |
| Driver of Transit Mix under 4 yds. | 2.44 |
| Driver of Transit Mix, 4 yds. and over | 2.54 |

It shall be mandatory upon the contractor to whom the Contract is awarded, and to all sub-contractors under him, to pay not less than the prevailing rate established by the Trade Agreement in the area in which this project is being constructed. All other classifications required will be paid for at the prevailing wage scale. Overtime and holidays to be paid according to the governing union by-laws. Eight hours shall constitute a day's work.

A certified check, cashier's check, or bidders bond in the amount of ten percent (10%) of the amount of the bid is to be furnished with the bid, payable to the Board of Education, of the Porterville Elementary School District, as evidence of good faith that the bidder, if successful, will enter into a contract satisfactory to said Board of Education, and in addition thereto, will furnish surety bonds in an amount of 100% of the bid covering Labor and Materials, and 100% of the bid covering Faithful Performance, according to law.

The Board of Education reserves the right to reject all bids or alternate bids, if any, deemed not advantageous to the District, and to waive any informality in any bid received.

Dated: June 20th, 1956, in Tulare County, California.

## LEGAL NOTICE

## Cotton Season

(Continued From Page One)

operative was Edwin J. Neufeld, of Wasco; L. W. Frick, of Arvin, was re-elected chairman of the board, and Ben H. Hayes, of Madera, was re-elected vice president. Mr. Kennedy was re-elected executive vice president and general manager.

By unanimous vote, members approved changing the name of the association from California Cooperative Association Ltd., to Calcot, Ltd.

Re-elected to the 29-man board of directors from Tulare county were: C. R. Shannon, Tulare; Forrest Howes, Visalia, and R. E. S. Hesse, Tulare. During the board session, establishment of three directoral districts in Arizona was approved.

This year, for the first season, Calcot has handled Arizona upland cotton, and during the 1956-57 season the association will handle both upland and long staple growths from Arizona, along with its deliveries of California Acala 4-42.

In his manager's report, Mr. Kennedy said, "Your association has reached a degree of maturity that provides a business base that is not only financially sound but today possesses the plant facilities, market outlets, capital structure and yearly volume of cotton to provide an organization that enables a flexible and efficient operation."

He said, "We have grown in a most orderly fashion, and orderly growth has kept us in pace with the cotton business. Today we are equipped to serve mill customers in any market, foreign or domestic, for their requirements of Far West cotton. With the loyal support each of you have given over the years, your marketing organization has put together experience, facilities, capital and market development in such a way as to insure the future as at no time previous in the 29 years of operation."

Turning to the cotton market outlook for the coming season Mr. Kennedy said trends appear to favor the marketing of high quality cotton early in the fall, and urged the membership to take greater care in production and harvesting. He mentioned the government support prices established for next season and noted that they will be lower, on an average, about three cents per pound, but only about one and one-half cents per pound on higher grades.

Equipment was on display during the meeting from Calcot's Bakersfield fiber testing laboratory, and while his assistant demonstrated the uses of the machines, George Harrison, the association's agricultural consultant, explained their need in modern cotton marketing.

A demonstration of cotton classing at the annual meeting, drew considerable attention from growers. Besides demonstrations of the mechanics of classing, the various factors that contribute to production of higher quality were explained to the growers.

## Farmers Can

(Continued From Page One)

the crop, (2) result in the harvesting of an acreage of the basic crop less than the farm allotment, and (3) not be grazed, cut for hay, or cropped for the entire 1956 calendar year. Noxious weeds must also be controlled on the "reserved" acreage.

In order to participate in the Acreage reserve, a farmer must comply with all acreage allotments established for the farm.

Maximum and minimum acreages of the basic crops which may be placed in the Acreage reserve have been established as follows (except that where the allotment is less than the specified acreage minimum or maximum, the total allotment shall be considered as the minimum or the maximum):

For wheat, the maximum is the larger of half the wheat allotment or 50 acres. The minimum is the larger of 10 percent of the allotment or five acres.

For rice, the maximum is the larger of half the rice allotment or 50 acres. The minimum is the larger of 10 percent of the allotment or five acres.

For cotton, the maximum is the larger of half the allotment of 10 acres. The minimum is the larger of 10 percent of the allotment or two acres.

For peanuts, the maximum is the larger of half the allotment or 10 acres. The minimum is the larger of 10 percent of the allotment or one acre.

The payment which a farmer may earn for participating in the Acreage reserve will be determined by multiplying a base unit rate by a yield factor. The national average rates for 1956 crops are: Cotton, 15 cents per pound; wheat, $1.20 per bushel; rice, $2.25 per hundredweight; and peanuts, three cents per pound.

The payments will be determined as follows:

For underplanting the allotment for cotton, rice, tobacco, peanuts, or wheat (when planted to spring wheat), the payment rate will be based on the normal yield for the designated acreage.

For underplanting 1956 winter wheat, because of adverse weather, the payment will be $4.00 per acre.

For destruction due to natural causes, or for plowing or otherwise physically incorporating the crop into the soil; or for clipping, mowing, or cutting the crop, the payment will be based on the smaller of an appraised yield for the field or the normal yield for the farm, but will not be less than $6.00 per acre.

Provisions of the Conservation reserve part of the Soil bank will be announced as soon as practical. Under this part of the program, a farmer will be able to earn two types of payment — an annual payment to help compensate for income which he would have received if the "reserved" land had been in crop, and a payment representing a percentage of the cost of establishing conservation practices on such land.

The same acreage on a farm may not be included under both the Acreage reserve and the Conservation reserve parts of the Soil bank.

## STORY HOUR AT LIBRARY

Children of the community are invited to a story hour that will be presented weekly on the lawn outside the Porterville Library, each Tuesday from 10:00 to 11:00 a.m., starting next Tuesday and continuing for a period of six weeks.

Kathryn Rambo will conduct the story period. Material is designed for the age group in grades two to five.

## FARMERS!

Send for this FREE BOOKLET for facts on SOCIAL SECURITY!

Now that farmers are covered under the Social Security Act, you may wonder exactly how far Social Security will go toward protecting you and your family—today and in the future.

That's why New York Life has prepared this fact-filled booklet, "What Social Security Means to the Farmer and His Family." It explains the new law in detail. What's more, it goes on to tell farmers how they can team up Social Security and life insurance security... *for maximum security!* Get in touch with me for your FREE COPY!

ARTIST DRAWING of the Rockwell Manufacturing company plant that will be constructed north of Porterville, on new highway 65, near Pioneer. Plans and specifications for the building, to be constructed by the Porterville Civic Development Foundation and leased to Rockwell, are now in the hands of contractors and it is expected that bids will be called about the middle of July. Construction is expected to start early in August, with from seven to eight months estimated for completion. Steel has already been contracted for delivery in July and August.

## Rockwell Plant

(Continued From Page 1)

people he has met, and feels that there is a definite progressive spirit in the town.

"I like Porterville", he says, "and I think that people of the Rockwell company and people of your community are going to get along just fine."

As to the question of when the company will start hiring, Mr. Hudson says that no job applications will be taken until shortly before the plant opens. He said that the Rockwell organization is interested in young men and women who desire to stay with the company and "work toward the top."

In this connection, Mr. Hudson says that Rockwell policy is to move their own people up from the "bench jobs" into management and administration as they gain experience to handle these types of jobs.

The Porterville plant will be constructed as a warehouse for west coast distribution of Rockwell products, and for servicing work. Some of the products manufactured and distributed by Rockwell are: Delta Power tools, Nordstrom valves, commercial and industrial gas meters, water meters, gas regulators and gasoline pumps.

The company has 19 plants throughout the United States and employs 5,000 people; Mr. Hudson states that the Porterville plant is designed to give better customer service in the west and to eliminate the necessity of supplying the western market from eastern and mid-west distribution points.

Mr. Hudson, who has been associated with the Rockwell Manufacturing company for 20 years, now resides in Dubois, Pennsylvania. He plans to move his family — three sons ranging in age from seven to 14 years, and his wife, Florence — to Porterville in August.

## Old Buildings Are Being Worked Over Along The Avenue In Porterville

Two of Porterville's older buildings are getting a working over— the former Pioneer Bank building and the Dan Abbott building.

Mrs. Max B. Jamison is remodeling the upper story of the old bank building into a "pent house" home, complete with elevator, that will overlook the intersection of Main street and Putnam avenue; the Jamisons are selling their former home to Dr. and Mrs. Warren Goux.

The old Abbott building, constructed about the turn of the century, now houses the Leggett's store; a "face lifting" operation is underway on this building to give Leggett's a brand new store front.

I. J. Elliott has brightened up the north end of Main street's business district with a colorful neon Ford sign, backed by a Billingsley & Elliott sign.

Pacific Telephone and Telegraph is further expanding its Porterville facilities by construction of a new warehouse, loading dock and vehicle storage area just north of Sequoia Forest headquarters to serve the maintenance and construction part of the telephone company setup.
